"We Take Pride in Servicing Our Customers"

October 16, 2008

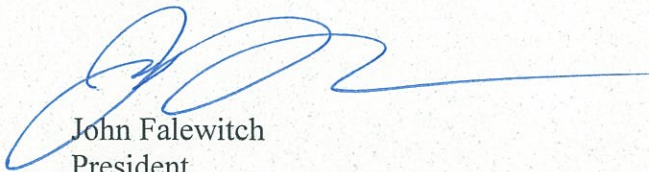

To Whom It May Concern:

This letter is in regards to a recommendation for Robert Krause and Shawn Swaney. I have known the gentlemen for the past ten years on a personal and professional level.

As a construction business owner, I have a lot of building resources and options when it comes to a construction project. In 2005, I elected to have Robert and Shawn oversee the construction of my commercial building. As a customer, these two gentlemen provided me with great service. The project ran smoothly and was completed on time. Robert and Shawn do an excellent job at accommodating all subcontractors and ensuring that the project is very team orientated.

I am positive you will find that Robert and Shawn have all the qualities and capabilities to run a smooth and productive construction company. If you should have additional questions please contact me at 402-291-1000.

Sincerely,

John Falewitch
President
