To Whom It May Concern:

RE: KSI Construction
8720 South 114th Street, STE. 105
La Vista, Nebraska 68128

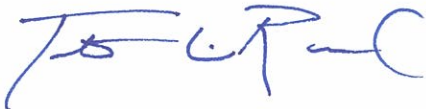

My firm has had the opportunity to work with Robert Krause and Shawn Swaney on several projects over the past eight years. Both gentlemen are hard working and possess a desire to see their projects through to fine detail.

KSI Construction employs a team atmosphere throughout their organization. They understand that the common goal is to complete a project on time and on budget while exceeding client expectations. When working with KSI Construction on a project, I am confident that we, along with the Owner, form a team dedicated ultimately to client satisfaction. Their knowledge of construction and their personality styles give them both the ability to provide resolution to conflicts, potential or realized, that may arise during the construction phase of a project.

As with all qualified construction professionals, Robert and Shawn perform best when made a part of the team during the formulative schematic design phase of a project. Their experience gives them the ability to identify potential conflicts before they are incorporated into the plans. This is a tremendous benefit to us and our clients because it helps to mitigate cost overruns while maintaining our original design intent.

Should you have any questions, please do not hesitate to contact me.

Sincerely,

Trenton L. Reed, AIA
